Flutter Developer with experience building scalable mobile applications using Flutter and Dart. Skilled in API integration, Firebase, state management, and clean architecture. Passionate about creating high-performance, user-friendly applications and continuously learning modern mobile development technologies.

EXPERIENCE

Jr. Flutter Developer

Kathmandu

Dynamic Technosoft Pvt. Ltd.

Jun, 2025 - Present

Played a key role in designing, developing, and deploying cross-platform mobile applications for both Android and iOS, while improving the performance, stability, and scalability of multiple enterprise applications, including Academic ERP, Dynamic CRM, Pivotal, SalesFusion, and Dynamic Mart ERP. Led initiatives to optimize memory consumption, reduce application crashes, enhance responsiveness, and modernize legacy code, resulting in a more reliable and seamless user experience. Consistently delivered high-impact features and collaborated with QA and cross-functional teams to proactively identify and resolve critical issues, contributing to faster releases, improved product quality, and increased customer satisfaction.

Jr. Flutter Developer

Kathmandu

Vroom Nepal

Oct, 2024 - Jun, 2025

Contributed to the development and enhancement of a subscription-based ride-sharing application by delivering new features, improving user experience, and ensuring seamless functionality. Played a key role in building responsive and intuitive user interfaces, integrating backend services, implementing efficient state management and local storage solutions, and maintaining application reliability. Collaborated closely with designers and QA teams to translate business requirements into high-quality user experiences, accelerate issue resolution, and support the delivery of stable and customer-focused product releases.

Flutter Developer Intern

Kathmandu

Vroom Nepal

Sep, 2024 - Oct, 2024

Worked as a Flutter Developer Intern at Vroom Nepal, contributing to the development of a subscription-based ride-sharing application. Focused on building responsive user interfaces, implementing new features, and managing application state to ensure smooth and consistent user experiences. Collaborated with designers to translate requirements into functional UI components and improve usability while supporting the delivery of stable and high-quality application updates.

EDUCATION

BCA

kathmandu

Yeti International College

Jan, 2023 - Present

PROJECTS

Dynamic Academic Erp

Dynamic Academic ERP is a comprehensive education management system that streamlines academic and administrative operations for educational institutions. It provides integrated modules for student information, attendance, examinations, fee management, library, transportation, HR & payroll, accounting, and parent communication, enabling efficient, centralized, and secure management of academic processes.

Dynamic Safesfusion

Dynamic Salesfusion is a comprehensive accounting and financial management system designed for wholesalers, dealers, trading, manufacturing, and import/export businesses. It streamlines financial operations with features such as general ledger, bank reconciliation, payment and receipt management, cost centers, profit & loss reporting, cash flow, balance sheets, journals, budgeting, and financial reporting, enabling businesses to manage finances accurately and make informed decisions.

Dynamic CRM

Dynamic HR & Payroll Management is a comprehensive human resource management solution designed to streamline workforce operations. It centralizes employee records, attendance, leave management, payroll processing, recruitment, performance tracking, and reporting, enabling organizations to automate HR processes, improve operational efficiency, and ensure accurate payroll and compliance management.
